

Total quality improvement process and the internal auditing function

Chapter 1 -Introduction

Background

Objectives of the study

Chapter 2- The quality revolution

Introduction

Evolution of the quality movement

Characteristics of quality programs

The Malcolm Baldrige National Quality Award

TQM and the Internal Auditing Function

Chapter 3- Tools and Techniques of TQM

Introduction

The Seven QC Tools

The Seven New QC Tools

The Improvement Cycle

Internal Auditing Applications

Chapter 4- Research Methods and survey findings

Introduction

Development of case studies

Development and contents of the questionnaire

Sample Size, mailing procedures, and response statistics

Profile of respondents and firm characteristics

Discussion of findings on quality related areas

Role of internal auditing function in TQM programs

TQM and the internal auditing function

Conclusions

Chapter 5- Case: Federal Express Corporation

Introduction

Development of Quality Programs at Federal Express

Key Elements of Total Quality at Federal Express

Internal Auditing Function and TQM at Federal Express

Chapter 6- Case: Solectron Corporation

Introduction

Key Characteristics of Quality Programs

TQM and the Internal Auditing Function

Chapter 7- Case: Xerox Corporation

Introduction

Evolution of Quality at Xerox

Deployment and Components of Total Quality at Xerox

Internal Auditing Function at Xerox

Chapter 8- Case ITT defense & electronics

Introduction

Key Characteristics of Quality Programs

Involvement of Internal Auditing in Quality Programs

Application of TQM within the Internal Auditing Function

Key lessons

Chapter 9 – Summary and conclusions

Introduction

Major Conclusions

Implications for Internal Auditors
